

In the Claims

1 – 10. (cancelled)

11. (new) A method of treating infectious diseases or inflammations of the respiratory tract in a subject in need thereof, said method comprising administering to the subject a therapeutically-effective amount of a pharmaceutical composition comprising Eucalyptus oil and orange oil.

12. (new) The method of claim 11, wherein the ratio by weight of Eucalyptus oil to orange oil is between 1 : 10 and 10 : 1.

13. (new) The method of claim 11 or 12, wherein the ratio by weight of Eucalyptus oil to orange oil is 2 : 1.

14. (new) The method of claim 11 or 12, wherein the composition further comprises at least one pharmaceutically acceptable inert ingredient.

15. (new) The method of claim 11 or 12, wherein the composition is formulated as a hard or soft gelatine capsule.

16. (new) The method of claim 15, wherein the content of Eucalyptus oil and orange oil is 1 to 80 percent by weight.

17. (new) The method of claim 15, wherein the content of Eucalyptus oil and orange oil is 10 to 75 percent of weight.

18. (new) The method of claim 15, wherein the content of Eucalyptus oil and orange oil is 40 to 70 percent by weight.

19. (new) The method of claim 11 or 12, wherein the composition is formulated as a liquid form of administration.

20. (new) The method of claim 19, wherein the content of Eucalyptus oil and orange oil is 0.1 to 10 percent by weight.

21. (new) The method of claim 19, wherein the content of Eucalyptus oil and orange oil is 0.3 to 7 percent by weight.

22. (new) The method of claim 19, wherein the content of Eucalyptus oil and orange oil is 0.5 to 3 percent by weight.
